### COMFORTABLE SEATS

The largest in the industry, features a polypropylene bottom that won't rot, sag or warp. Covered with thick, durable seamless vinyl, they're contoured for maximum comfort.

### UTILITY DUMP BED

With a 7.8 cubic foot, 300 lb. payload capacity, pneumatic-assist tilting, fold & lock tailgate and roto-molded linear polyethylene construction, this is where the hard work gets done.

### DEPENDABLE 357F ENGINE

We build the car. We build the engine. None of the competition can say that. Our tough, reliable low-emission 357cc engine produces 11.4 hp of muscle. And thanks to a splash-style positive lubrication system, we've eliminated the need for an oil pump and oil filters.

### POWERFUL 48-VOLT MOTOR

Manufactured by Hitachi, our electric motor is high quality, highly efficient, whisper quiet, and at 3.5 horsepower is also one of the most powerful in the industry. Its state-of-the-art regenerative braking moderates speed on downhill inclines while simultaneously recharging the batteries.

### 2" HITCH RECEIVER

Designed with versatility in mind, the standard 2" hitch receiver accommodates a wide variety of pull-behind accessories.

### HEADLIGHTS & TAILLIGHTS

If the sun goes down before the work is done, no worries. The Adventurer Range Picker comes standard with halogen headlights and taillights to help you find your way back to the barn.
